

**Re: Participation in The Ontario Herbalists Association (OHA)  
Member Benefits Program**

Dear Community Members,

Thank you for considering partnering with the OHA by promoting your service and offering a discount to our members.

The OHA is a self-regulating body for herbalists in Ontario. For more than 30 years, the OHA has worked diligently to protect and promote the safe practice of herbalism within the general community and with all levels of government. Additional details about our organization can be found at <http://www.herbalists.on.ca>

The OHA is the only association representing herbalism in Ontario at the Federal level as a member of the Canadian Council of Herbalist Associations.

One goal of the OHA is to promote public awareness of herbalists and herbalism to the general public. To further its goals, the OHA also creates opportunities for its membership to access discounts at stores and services participating in the benefits program. This provides advertising to your store or service through listing of your business name, logo and contact information on our website.

We would love for your store to participate in this benefit to OHA members and we would also be pleased to announce your participation in the OHA newsletter as well as our Facebook page.

Please contact us at [office@herbalists.on.ca](mailto:office@herbalists.on.ca) if we can provide you with any additional information about how we can mutually work to support each other's work in the future.
